

Love is forever

Brieve Morison

I can't tear my self away from the past
It seems my mind just runs along it old tracks
And the track of love leads me straight to you
Woa woa what am I gonna do

I believed that all of love's cliches were true
I thought it meant something when you said I love you

I can't bring myself to believe the proof
Bt all I got to do is admit the truth
And the truth is that and the truth is this
Either it must be hers if it's not it's his

I believe that all of love's cliches are true
I think it means something when you say I love you
Love is forever love is forever

You be unkind drive me out of my mind
I'll be so cruel we'll be such fools
Love is forever Love is forever

Now the wind it blows and the trees they bend
But all these breathing things must come to an end
And in the stillness where there is no fear
You whisper I love you you breathe it in my ear

And I believe that all of love's cliches are true again
I think it means something when you say I love you
Love is forever that's what they say
Love is forever and a day
Love is forever until it ends love is forever
