There's nothing wrong   Brieve Morison

There's nothing wrong with you
That a good hard job wouldn't cure
There's nothing wrong with you
I'm an expert on that you can be sure

If by wrong you mean not right
I wouldn't admit it if I were to be
By wrong I mean there are no reasons
That mean that much to me

There's nothing wrong
That a few million years won't solve
There's nothing wrong that
Ten billion tears won't absolve

If by wrong you mean not right
I wouldn't admit it if I were to be
By wrong I mean there are no reasons
That mean that much to me

There's nothing wrong x2

There's nothing wrong with them
They all know what they died for
There's nothing wrong with them
They're just a common factor

If by wrong you mean not right
I wouldn't admit it if I were to be
By wrong I mean there are no reasons
That mean anything to me
There's nothing wrong
