

You make my river run Brieve Morison

Like the wind on the hill
That blows crazy until
It finds somewhere still
The ocean's mighty roar
Would roar for evermore
If there was no shore
We saw a river run
You and I
And spoke it with our tongues You and I
You make my river run.

Like the drift of the smoke
Across the water
When you spoke
Your face said much more
You can't hide what there is That's just the
way it is
Will be for ever more
Ah we saw a river run
You and I
And spoke it with our tongues
We saw a river run
You make my river run

Maybe we're searching inside
For something we won't find
It's on the out side
But I feel it so much
Feel it when we touch
Here on the inside
We saw a river run
And spoke it with our tongues You make
my river run

Like the rocks on the hill
One day they will
Surely fall
And when the fall
They will roll
It's only rock and roll baby that's all

Ahh we saw a river run
You and I
And spoke it with our tongues
We saw a river run
You and I
You make my river run
