

You used to be Brieve Morison

When dreams fall apart
Do angels catch them?
And as they're falling
Take them to an empty heart

You used to be you used to be
Someone I didn't know
You used to go
Places I didn't go
You used to be
You used to be
Are you going to be
Used to be again

Some people seem to have all the luck
And on their stars you can make a book
But as they're falling you should take a closer look

You used to be
Someone I didn't know
You used to go
Places I didn't go
Now as we're falling
As we're falling
As we're falling
Are you going to be used to be again

Come down here
And rescue me
I feel I've fallen
Right past eternity

You used to be
Someone I didn't know
You used to go
Places I didn't go
Now was we're falling
Come on babe
As we're falling
There's something to save
As we're falling

Are you going to be
Used to be again

When dreams fall apart
I hope that angels catch them
And as they're falling
Take them to your empty heart
Mines empty too
Since I ain't got you

You used to be
You used to be
Are you going to be
Used to be again
